This Fairline Targa 34 is very well maintained and stored in a warm storage every winter. This Fairline Targa 34 is built for all-round, high-performance enjoyment. She has powerful offshore capability, comfortable berths, and ample water and fuel capacities. The beamy, modified deep-V hull has been designed with a generous freeboard, carried well forward, to make light work of heavy head seas. All her diesel engine options will give a sparkling performance; the most powerful takes her up to about 40 knots. The very sociable and attractive cockpit layout has spacious seating, dining and sunbathing areas, and a cockpit drinks bar with a large top-loading fridge. The forward section of the cockpit hood forms a sun canopy. A strong transom gate leads out onto the large bathing platform, which has a long, wide-tread swimming ladder, a hot and cold shower unit, and an integral stern locker for fenders and diving gear. Belowdecks, a flowing plan with wide door frames and plenty of headroom make the cabins easy to access. The three-cabin format offers six comfortable berths. A slide-out panel converts the forward cabin V-berth swiftly into a double bed. Paul Rimmelzwaan 0031 (0)6 57332267 p.rimmelzwaan@e-y-n.com
