The Hanse 400 is an excellent sailor who is built with high-quality materials. Thanks to the presence of a roller-mainsail and a self-turning jib this Hanse is easy to operate. The spacious cockpit makes stay on board very pleasant. Also inside there is plenty of storage space and living space. The cabins at the back are asymmetric. Because of this there is in the back of a very spacious sleeping space available while the third hut is still big enough for two people.
