Jeanneau NC9 (2015)

Property: 64.007.2784

EYN Price: **€ 139.900**

Length: 9,43 m; Width: 3,15 m; Draft: 1,15 m; Headroom: 1,90 m; Engine brand: Volvo Penta D4-260; Total engine power: 260 hp; Engine hours: 67 hour; Number of engines: 1 ; - : Shipyard ; Trade: Not possible ; Rent (to buy): Not possible ; Private Financing: Partially possible ;

The new Jeanneau NC 9 (New Concept) is truly an all rounder. The Jeanneau NC 9 builds on everything that made the NC 11 such a hit. NC 9 captures much of the the same attitude as he bigger sister on a slightly smaller scale. Life on the ocean waves with a very modern twist, make the most of the high level of comfort be amazed at the vision from inside this Motor Cruiser. price-button-red Put simply the Jeanneau NC 9 means there is no compromise on your pleasure! More About the Jeanneau NC 9 The Jeanneau NC 9 concept is a real event in marine leisure boating. There are so many benefits from this new concept by Jeanneau, such as a large comfortable saloon that has many different modes. You can play around with the space creating a perfect environment for almost every occasion. Following on from the very successful NC 11, you will find this slightly smaller boat has almost as much to offer as its bigger sister. Jeanneau described the NC range as a revelation in boating comfort, we hope you agree. The Jeanneau NC 9 is full of space rationalising innovations to optimise life on board. With single engine propulsion, the NC 9 is aimed at a broad-based new customer segment. The NC 9 is so impressive with her elegant line and contemporary design. She offers real living space “with all mod cons”: the care devoted to the décor, trim, and

EUROPEAN YACHTING NETWORK

selection of materials creates a warm, contemporary ambiance. The huge saloon has two settees facing each other.

The forward settee will often be converted into a navigation station, facing forward. The solid wood storage tray also acts as a stabilisation handle. Open to the sea Large glazed surfaces allow exceptional brightness and unlimited contact with nature. The big, three-leaf, level threshold sliding French window, a fantastic feature that turns the cockpit into an extension of the saloon; this maximises space and ensures safer movements on board. The back of the aft settee pivots giving a choice of position forward or aft. The cockpit's modular options will meet your space arrangement needs. The large aft bench seat is set on rails and therefore slides to increase cockpit space and free up the sundeck area. An opening sliding roof creates an indoor-outdoor feel at the plush helm station. Equipped with a sliding side door at the helm the skipper can gain direct access to side deck which is offset giving wider access on one side. The NC 9 is a very interesting concept that has been introduced by Jeanneau.
